#### Ferrite content Examination

The ferrite content was determined in accordance with ASTM E562-02 using the point count method.

Ferrite

53 %

Austenite

47 %

#### Micrographic Examination

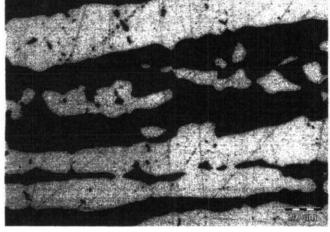

Micrographic examination acc.to ASTM A923-08 Austenitic-ferritic microstructure

Etch media: H2O 1000 ml, NaOH 400gr

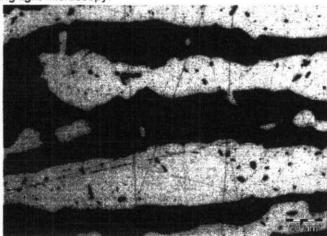

The material is free from intermetallic phases and precipitates.

#### Photomicrographs:

The microstructural photographs were examined at 500x using light microscopy.

Location: 1/4T original photo: 500x

#### Corrosion Examination

Intergranular Corrosion acc.to ISO 3651-2 method B: Satisfactory

Pitting Corrosion acc.to ASTM G48 method A - 50°C - 24h Corrosion Rate 2,103 g/m², no pitting at 20x magnification

BS EN ISO 9001 BSI Registration No. FM 00777

No.: 117763 / 2012.02.06 Blatt/Sheet/Page: 4 / 7

EN 10204-3.1

#### Nondestructive Examination

Positive Material Identification: Satisfactory

100% Ultrasonic test acc.to DIN EN 10308 The material fulfils quality class 2

100% Ultrasonic test

A flat bottom hole (FBH) reference technique was used as specified in ASTM A388.

The performed US-Test fulfils all requirements of ASTM A 388 acc. to API 6A Para. 7.4.2.4.11 - PSL 4

100% Surface Inspection A visual test was performed. The bars are without unacceptable surface defects.

#### Statements

The material is free of mercury contamination.

No weld repair has been performed on this material.

Country of origin and melt: AUSTRIA

The recording of false, fictitious or fraudulent statements or entries on the document may be punished by Austrian law (Austrian Penal Code 223F)

Austria is listed as a qualified country in DFARS 225.872 because the United States and Austria have signed reciprocal defence procurement MoU.

Austrian material may be used in "Buy America" applications where the total value of Austrian material is less than 50% of the value of the component.

BOHLER EDELSTAHL is an eligible supply source according to DEFARS 252.225-7014.

Free of mercury, free of mercury compounts and or radium contaminationat time of shipment.

The above are true an correct results of tests on samples of the material. Results conform to the specifications applicable and are on record.

#### Attachment

Ultrasonic Report SK 16/27 Operators qualification Furnace chart

#### Radioaktivitätskontrolle/Radioactivity inspection: Co-60<0,1Bq/g;

hiermit kleiner als Grenzwert in der anzuwendenten Spezifikation IAEA RS-G-1.7 für unbedenkliche Stoffe. therefore smaller than upper limit required according to specification IAEA RS-G-1.7 for inoffensive material.

Wir bestätigen hiermit, dass die obengenannten Erzeugnisse den Bestellvorschriften entsprechen. We hereby certify that the above mentioned products are consistent with the order prescriptions. Nous certifions que les produits enumeres cl-dessus sont conformes aux prescriptions de la commande.
